Re: New VINTAGES NTP Additional Information Requirement

Dear Trade Partners,

Effective immediately, VINTAGES will be adding an additional NTP requirement to be completed by our agent partners.

In addition to confirming the pick-up details and UPC/SCC barcodes, agents will now be required to upload quotes on supplier letterhead directly into NISS after an NTP is issued. It is the agent's responsibility to ensure that the quote information is accurate and matches the information submitted into NISS.

Please pay specific attention to:

- Quote per case
- Currency
- Quote type
- Case pack configuration

Until further notice, agents will still be required to attach the hard copy of the supplier quote to their NISS application.

We appreciate your continued partnership and cooperation with this new NISS requirement.

Sincerely,

Kathy Cannon
Director, VINTAGES
