- Note: 1) No quotes are provided for areas in which the LCBO has less than 10 orders in a calendar year.
2) For areas that have established Excellar quotes the suggested order quantity must be ordered. Any orders placed for less than the suggested order quantity will result in a higher freight cost.
3) The LCBO cannot guarantee that each country/consolidation facility will at any given time have sufficient order quantities to allow for a consolidation from that country/consolidation facility. Insufficient volumes or case quantities from a consolidation facility may result in additional freight costs being applicable.
4) Suggested order is simply a recovery of the minimum Excellar charge at a specific consolidation location i.e., when the average order size goes down, the suggested order quantity goes up to recover the minimum charge assuming no change in the underlying rates.
