**RE: Recent call for Vintages California Walk-Around Tasting Event**

Dear Trade Members,

Due to a technical glitch, the accept and decline notices sent out through NISS for the recent Vintages California event call were incorrect. This will come as a disappointment to many of you, but in the interest of the category and holding a successful event, we are re-sending notices through NISS today, Friday, May 6. We have taken steps to ensure this error does not repeat itself.

This will affect 56 of the wines that were previously accepted and 56 wines that were previously declined. We apologize for the inconvenience to those who thought they were accepted. We ask that if you receive a notice of acceptance today to please deliver paperwork by next Monday, May 16, as POs are due to be cut soon.

Again, our sincere apologies to all affected trade partners for this inconvenience.

Best regards,

Colby Norrington

VINTAGES Category Manager, New World Wines
