

Logistics/QA Traffic Report:

An update on global situations that may affect product flow.

Week of:

- November 13th 2017 – Central and Northern Europe

- **Central and Northern Europe**

Status:

- Heavy storms though central and northern Europe led to disruptions at a number of container terminals. These disruptions, coupled with significantly impeded rail service, led to delays which have now been eliminated. LCBO Traffic reports that shipments through European ports are moving on schedule. No delays have been reported, or are anticipated.

1.

This is a general information circular designed to alert members of the trade to global issues which may affect product flow. For detailed information as to the status of particular product shipments please contact your Customer Service Representative (for Specialty Services shipments) or Inventory Manager directly.
