

Logistics Traffic Report:

An update on global situations that may affect product flow.

Week of:

- November 12, 2018- Germany, Spain , North America
-

- 1.**

 - **Germany**

Status:

 - Low water levels on the River Rhine continue. Delays are expected due to congestion at alternative terminals and ports. LCBO will continue to monitor the situation closely.
- 2.**

 - **Spain**

Status:

 - Trucker Unions have scheduled a 2 day transportation stoppage taking place on November 15-16. This may impact operations at the Barcelona port. LCBO will continue to monitor the situation closely.
- 3.**

 - **Montreal**

Status:

 - Container congesting in the CAST terminal is creating significant delays. Several vessels are on slow steam due to the volume of vessels at port waiting to be off loaded. LCBO will continue to monitor the situation closely.
- 4.**

 - **St. Lawrence River**

Status:

 - Low water in the St. Lawrence River continues. LCBO will monitor and advise of any container-delays.

This is a general information circular designed to alert members of the trade to global issues which may affect product flow. For detailed information as to the status of particular product shipments please contact your Customer Service Representative (for Specialty Services shipments) or Inventory Manager directly.
