

Reference Guide: Questions & Response Menus for the Expanded Product Details Form

LCBO now requires additional product information for all newly approved product submissions. This supports QA regulatory reporting and enhances local product classifications, as well as captures the supplier's wholesale pricing estimation.

Instructions when filling out the form

- The form does not save work as-you-go, so it is best practice to gather all input before starting
 - It should take less than 10 minutes to complete.
 - Please review all sections carefully.
 - You are required to submit one form per product.
 - If you discover you need to make a change after submitting the form, please reach out to your Category team partners.
1. Select the name of the Administrator/Advisor caring for your category (most likely this is the person who invited you to complete the form).
